## U-Type Leads

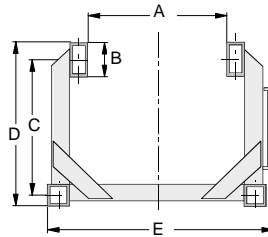

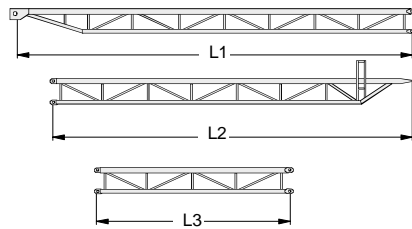

### Free swinging lead systems :

- Useable with every crane of the right lifting capacity
- Same lead segments like fixed lead system except top and bottom section
- Free swinging leads can also supported with hydraulic spotters

### Fixed lead systems:

- attachable to most of cranes by using a boompoint-connector to the existing crane boom tip or a so called Hammer head attached to the crane boom

### Pileco lead systems with show following features:

- The Pileco U-26 and U-32 leads utilize our proven pin connectors for quick field assembly
- All lead sections are interchangeable in order to permit various length combinations

The leads can be furnished with side mounted auger tracks for installation of continuous flight auger drills
